

## **Internal Vacancies**

**We are seeking exceptional individuals to fulfil the following roles:**

### **Property Team Leaders**

### **Vacancies in All Regions**

Site based, you will be responsible for the control of small claims projects. Undertaking the initial site assessment, reporting findings and submitting the scope of works, preparing the necessary Health & Safety documentation and undertaking restoration works.

Excellent interpersonal, communication and time management skills are needed for this role, together with the relevant qualifications. Previous experience in the disaster recovery industry and IT literacy (Microsoft) are essential.

We provide a 24 hour service. Therefore a flexible approach is required as some unsociable hours and participation in a call out rota will be necessary. There is also a requirement to work away from home and at weekends as the workload dictates.

The role also requires the individual to work and/or supervise within the workshop or on site on other projects when workload dictates. This will be on an ad-hoc basis.

A full driving licence is required. An excellent package will be provided to the successful candidates.
