

## **Internal Vacancies**

**We are seeking exceptional individuals to fulfil the following roles:**

### **Technicians**

#### **Vacancies in all Regions**

You will be required to undertake restoration and decontamination works, together with associated tasks, to the required quality standards and time constraints.

You will be working in either the regional workshop or on project sites as required, ensuring you maintain high standards of restoration and customer service.

Excellent interpersonal, communication and time management skills are needed for this role, together with the relevant qualifications or experience.

We provide a 24 hour service. Therefore a flexible approach is required as some unsociable hours and participation in a call out rota will be necessary. There is also a requirement to work away from home and at weekends as the workload dictates.

A full driving licence is required. An excellent package will be provided to the successful candidates.
